

RAS Checklist: NIH Director's New Innovator Award Program (DP2)

	Dranged must be submitted by grants gay by 5 n m. lead time on August 10, 2025
	Proposal must be submitted by grants.gov by 5 p.m. local time on August 19, 2025 In all cases the SF 424 and instructions in the RFA takes precedence over these guidelines.
	Applicants must meet the definition of Early Stage Investigator. <i>An ESI is a PD/PI who has</i>
	completed their terminal research degree or end of post-graduate clinical training,
	whichever date is later, within the past 10 years and who has not previously competed
	successfully as PD/PI for a substantial NIH independent research award. Applicants must hold an independent research position at a domestic (U.S.) institution by
ш	September 1, 2026. For this NOFO, an "independent research position" is a position that
	automatically confers eligibility to the investigator (based on institutional policy) to apply for
	R01 grants with appropriate institutional commitment of facilities for the conduct of the
	proposed research. Investigators still in training or mentored status (such as postdoctoral fellows) are not eligible to apply unless they have a written commitment from the institution
	stating they will be in an independent faculty position by September 1, 2026. The
	commitment is certified by the institution's submission of the application.
	PI must commit at least 3 person months (25%) of their research effort to activities
	supported by this award.
	NIH will only accept six new, renewal, resubmission, or revision applications from an individual Principal Investigator/Program Director or Multiple Principal Investigator for all
	council rounds in a calendar year. This policy applies to all activity codes except T activity
	codes and R13 Conference Grant Applications. It also does not apply to non-competing
	continuations, administrative supplements or change in institution applications. Please
	see NOT-OD-25-132 for details.

PHS Assignment Request Form

All instructions in the SF424 (R&R) Application Guide must be followed with the following modification. Since all applications are received as "Office of the Director" applications and are reviewed by a single Special Emphasis Panel, applicants should not request assignment to a particular review panel or awarding component. Since letters of collaboration and biosketches of collaborators are not allowed, provide the names of collaborators here to identify them for exclusion during reviewer assignment.

HS Human Subjects and Clinical Trials Information

When involving NIH-defined human subjects research, clinical research, and/or clinical trials (and when applicable, clinical trials research experience) follow all instructions for the PHS Human Subjects and Clinical Trials Information form in the SF424 (R&R) Application Guide.

If you answered "Yes" to the question "Are Human Subjects Involved?" on the R&R Other Project Information form, you must include at least one human subjects study record using the Study Record: PHS Human Subjects and Clinical Trials Information form or Delayed Onset Study record
