PHS Assignment Request Form

Since all applications received in response to this NOFO are assigned to a single Special Emphasis Panel and initially to the Office of the Director, do not suggest assignment to a specific study section or awarding component at NIH. **Since letters of collaboration and biosketches of collaborators are not allowed, provide the names and institutional affiliations of collaborators in the section for individuals who should not review the application.** Also, if you wish to request that certain individuals not review your application, list their names, institutional affiliations, and the reasons why they should not serve as reviewers.

Letters of Reference

Letters of reference are an important part of the Pioneer Award application. Applicants must arrange to have three (and only three) letters of reference submitted on their behalf.

Applications that are missing letters of reference will be considered incomplete and will not be reviewed. Late letters will not be accepted. Letters must be submitted electronically – paper copies will not be accepted.

Applicants are responsible for monitoring the submission of their letters in the grant folder in the eRA Commons to ensure that three letters have been submitted prior to the submission deadline.

Budget

A detailed budget will not be accepted as part of the application. NIH does provide the following as an FYI: funds may be requested for personnel (including co-investigators and collaborators), supplies, equipment, sub-contracts, and other allowable costs. Only the five-year total – \$3.5 million -- should be entered on Lines 15a and c. Applicable Facilities and Administrative (F&A) costs will be determined at the time of award and should not be included in the budget request. A detailed budget is not requested and will not be accepted.

HS Human Subjects and Clinical Trials Information

When involving NIH-defined human subjects research, clinical research, and/or clinical trials (and when applicable, clinical trials research experience) follow all instructions for the PHS Human Subjects and Clinical Trials Information form in the SF424 (R&R) Application Guide, with the following additional instructions:

If you answered “Yes” to the question “Are Human Subjects Involved?” on the R&R Other Project Information form, you must include at least one human subjects study record using the Study Record: PHS Human Subjects and Clinical Trials Information form or Delayed Onset Study record

Effort

Pioneer awardees are required to commit the major portion (more than 6 person-months or at least 51%) to activities supported by the Pioneer Award research project in the first three years of the project period. Effort expended toward teaching, administrative, or clinical duties should not be included in this calculation. Awardees will be allowed to reduce effort to at least 4 person-months (33%) and at least 3 person-months (25%) in the fourth and fifth years, respectively, to help them transition to other sources of support, since Pioneer Awards cannot be renewed.

Applicants with current research commitments equal to 6 person-months or more must adjust their effort on existing grants during the award to devote the required minimum effort to the Pioneer Award project. Applicants who will not be able to meet this requirement should not submit applications.
