NOTE: The checklists below are intended to be used as a tool when preparing disclosure information for DOD-ARO grant proposals and awards. While we have tried to capture the essential aspects of agency guidance, it is still important to review all agency guidance, solicitation documents and relevant FAQs before final submission to the specific agency. Please contact your RAS administrator if you have any questions.

### Reporting Requirements

Current [ARO Reporting Instructions (March 2019)](https://example.com) require that Interim Progress Reports (IPR) and Final Reports (FR) be submitted using the Research Performance Progress Report (RPPR) online reporting tool available on the [ARO Extranet](https://example.com). The RPPR standardizes online reporting fields DoD-wide. While the purpose of these reports is to gather data and information regarding scientific and technical progress on the project, investigators may also be asked to update information previously provided in the biographical sketches or current and pending support submitted at the proposal stage. As more specific information is available, this checklist will be updated.
