RAS Checklist: NIH Director’s New Innovator Award Program (DP2)

No biographical sketches of potential collaborators or other key personnel are to be submitted and will not be accepted. Information on potential collaborators is not required but may be included in the Essay.

R&R Budget: (Note, this is a new format)
- The first segment (9/1/2022 – 8/31/2025), the total direct cost must not exceed $900,000.
- The second segment (9/1/2025 – 8/31/2027), the total direct cost must not exceed $600,000.

Itemized budget information is not required and will not be accepted. Instead, a total requested direct cost amount for each annual budget period, including requests for equipment purchase, is required.

Some basic information must be completed for NIH to successfully process the budget form. For each of the five annual budget periods:

1. Select the appropriate Budget Type.
2. Provide the Budget Period Start Date and End Date – September 1 of one year and August 31 of the next calendar year, respectively.
3. Section A: Senior/Key Persons provide an entry for the PD/PI, including the appropriate level of effort, and enter $0 for Requested Salary and $0 for Fringe Benefits. Entering $0 does not imply that the PD/PI will not receive any salary or fringe benefit support from the grant.
4. In Section C: Enter budget request for equipment. Provide justification using the Budget Justification.
5. In Section F: Other Direct Costs add a line item titled ‘Requested Direct Costs’ and provide the total direct cost request for that budget period. If equipment is requested in Section C, do not add the equipment budget in Section F.
6. Ensure that the two budget constraints described above are met.

Budget Justification
Use to provide justification only for requested equipment. Provide a description of the equipment and its intended use in the research project.
